Title: (EN) METHOD FOR DEMONSTRATING THE DRAINING ACTIVITY OF A C
AND COMPOSITION HAVING A DRAINING ACTIVITY
(FR) PROCEDE DE MISE EN EVIDENCE DE L'ACTIVITE DRAINANTE D'UN
COSMETIQUE ET COMPOSITION A ACTIVITE DRAINANTE

Abstract: (EN) The invention relates to a method for demonstrating the draining activity
dermocosmetic treatment, by comparing data representing the water content
epidermis, obtained by IRM with high spatial resolution before and after treati
composition. The invention also relates to cosmetic compositions containing a
cause a decrease in T1, T2 or N(H), especially certain xanthic bases and cert
marine extracts, and to the use of one such active ingredient for producing a
drainage effect, especially a thinning or cellulite-reducing effect.

(FR) La présente demande concerne un procédé pour mettre en évidence l'a
traitement cosmétique et/ou dermo-cosmétique par la comparaison de donn
teneur en eau dans le derme ou l'épiderme, obtenues par IRM à haute résolu
avant et après le traitement du corps avec une composition. Elle revendique
cosmétiques comprenant un actif susceptible d'entraîner une diminution de T1
certaines bases xanthiques et certains extraits végétaux (Dioscorée) ou marin
d'un tel actif pour la préparation d'une composition ayant un effet de drainage
amincissant ou de réduction de la peau d'orange (cellulite).
